Dear Mr. Duller,

I am writing to you on behalf of the "Career Forum" of Princeton University. The purpose of the Forum is to present men of many varied careers to speak informally to the undergraduate body of Princeton. Our program is aimed at counteracting a prevailing trend that the only fields open to the undergraduate student are the "stock trades" of law, medicine and business. In this venture, we plan to aid the student body by giving them advice.

and knowledge in other fields. Furthermore, through this Forum, we hope to help the student exercise his own initiative rather than follow established career patterns.

Our meetings are aimed at informality. Our program is planned to include such fields as the theatre, broadcasting, literature, writing and politics. Our first speaker this fall has been Dr. Robert Oppenheimer who spoke on "Careers in Science."

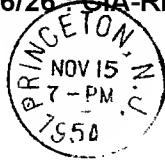

We believe your appearance here on campus would aid our project immensely. We sincerely hope you will find the opportunity to speak at a meeting scheduled for Thursday, Feb. 24, 1955 at 7:30 P.M. here on campus. If it is convenient,

it would be our pleasure to have
you here for dinner prior to the
meeting. We look forward to your
reply so that we may plan
accordingly and at which time we
shall send further details concerning
the meeting. Unless you have another
preference, we would be very happy if
you would talk on the "C. I. A. as
a Career." The Campus and I look
forward to your appearance here.

Respectively yours,
